RATE, PAYMENT AND CONSUMER PRICE INDEX (CPI) Percent Change From FY 1998 - FY 2007

- Grant increases for public assistance recipients have not kept pace with service provider rate increases, inflation (as measured by the Consumer Price Index) or Medicaid hospital and long-term care payment levels.

* Detroit Consumer Price Index (all Urban Consumers).

** Hospital payment increases are estimates based on FY 1998 2002 report data for in-patient hospital services, and subsequent increases in the Detroit/Ann Arbor CPI-U for Medical Care Services of 52.2% since 1998.

¹ DHS implemented standard FIP grants across all shelter areas (5/2006). A FIP grant for a family of 3 increased from \$459 to \$489. (I.e. standard grant amount for a family without earnings.)

- Michigan's unemployment rates are increasing, and projected to further increase through CY 2009. Increases in unemployment will put upward pressure on Michigan's public assistance caseloads, including FIP. Michigan's labor market trends have historically been the most statistically significant predictor of changes in Michigan's cash assistance caseloads.

ERROR RATES: FAMILY INDEPENDENCE PROGRAM FY 1993 - FY 2002

Note: The federal requirement for FIP auditing ended in FY 1996. The FY 1997 - FY 2002 entries are final state findings. The last federal results were for FY 1995 and FY 1996. Federal and/or state findings beyond FY 2002 are not compiled.

ERROR RATES AND SANCTION TARGETS: FOOD ASSISTANCE PROGRAM FY 1998 - FY 2007

- The Food Assistance error rate was below the sanction level from 1989 - 1995. Michigan's FY 1996 - FY 2002 error rates were above the U.S. average. Food Assistance sanctions were incurred for those years. Under federal sanction rules, sanction will only apply to year "2" of two consecutive years. Michigan did not incur federal sanctions for FY 2003, FY 2004, or FY 2005. Because the Michigan FY 2005 final "adjusted" error rate was below the national sanction target, Michigan was not sanctioned for FY 2006. Michigan will be subject to sanctions for FY 2007 as the FY 2006 rate was above the national sanction target. Final adjusted figures for FY 2007 will be released in June 2008. The final adjusted rate will determine if Michigan will be at risk of sanction in FY 2008. The Office of Quality Assurance estimates that Michigan will be in potential liability status for that year (FY 2008).

* *Estimated national target and estimated Michigan adjusted state rate.*

ERROR RATES AND SANCTION TARGETS: MEDICAID

FY 1998 - FY 2007*

- Michigan's Medicaid mispayment rate has been below the federal target level since FY 1980. Sanctions are imposed when the 95% lower confidence bound of the error rate estimate is over the target. Michigan was not sanctioned in FY 2003, FY 2004, FY 2005 or FY 2006. While Michigan's estimated error rate is 3.32% for the first 6-months of FY 2007, the lower bound of Michigan's 95% confidence interval (about 0.58%) is below the target. It is unlikely that Michigan will be sanctioned in FY 2007.

* The FY 2007 error rate is an estimate for the first six months of the fiscal year.

- The FY 2008 year-to-date (October 2007 - March 2008) caseload average is 74,771, the lowest since FY 2003 when the full year average was 74,086. In March 2008 (the most recent month) the FIP-Regular caseload total was 73,381, the lowest since January 2003 when it was 72,463.

* The FY 2008 figure is the Administration's current projected caseload.

Note: In October 2006, several changes were implemented in the Family Independence Program (FIP): 1) Two-parent FIP cases became 100% state-funded; 2) FIP cases containing an incapacitated adult/group became 100% state-funded; and 3) federal regulations redefined what constitutes a "two-parent FIP/TANF" household. An earlier change (May 2006) rescinded FIP applicant requirements to attend Work First Orientation prior to opening the case. The policy change (at it's height) resulted in nearly 8,000 additional FIP cases being opened, the majority of which would not have under the previous policy. As of June 2007, about 80% of the provisions of the May 2007 change were operationally reversed to again reflect pre-June 2006 policies requiring Work First Participation (prior to the case opening).

FIP CASELOAD *vs.* UNEMPLOYMENT

Percent Change

Calendar Quarters 2001:1 - 2008:1

- * The FIP caseload fluctuates (in part) due to changes in unemployment. Statistically speaking, unemployment is the most predictive "short-term" variable of FIP caseload change. The most predictive "long-term" variable of caseload fluctuation is the statistically significant change in identified population cohorts within the general population. In 1994, at risk age-cohorts in the Baby Boom generation began aging out of being at risk of needing cash assistance. At almost the same time Michigan and federal welfare reform policies were enacted. A third factor contributing to significant caseload decreases during this period (1994 - 2001) was the best Michigan economy since the mid-1960's. These three factors combined to result in a 70% caseload decrease. As noted in the above graph, the relationship between unemployment and FIP trends is striking (CY 2001:1 - CY 2008:1).

■ FIP Payment	\$459	\$459	\$459	\$459	\$459	\$459	\$459	\$489	\$489	\$489
▨ Value in 1999 Dollars	\$459	\$443	\$431	\$421	\$412	\$406	\$394	\$408	\$400	\$390

- Statewide FIP flat grant amounts were adopted in May 2006. The monthly value for a family of three without earnings is \$489. I.e. a FIP case with an eligible adult (expected to work - but without earnings) and two children. Inflation since 1999 has been sufficient to reduce the purchasing power of the 2008 FIP grant by 20%.

* Average monthly payment received by a FIP family with no earned income over the entire fiscal year. This amount may be different than the typical grant amount shown on other pages.

FIP Group of Three Based on Federal Poverty Threshold

FY 1999 - FY 2008

■ FIP Payment ▨ FIP and Food Assistance

- The FY 2008 FIP payment is estimated to be 35% of the poverty level. Adding Food Assistance to the FIP payment results in a family benefit that is 63% of the poverty level. **Note:** Assumes family of 3: Annual Poverty Threshold = \$16,992; FIP \$489 Mo.; FAP \$426.

FIP FAMILY INCOME AS A PERCENTAGE OF THE POVERTY LEVEL - FY 2008*

With Food Assistance, Earnings and the Earned Income Tax Credit (EITC)

FIP Family of 3 With Earned Income of \$769 Per Month

* The 2008 estimated poverty level for a family of 3 = \$16,992. A family of three receiving FIP, Food Assistance and average earned income of \$769 each month would have estimated household incomes equal to 85% of the poverty level.

** Includes \$489 FIP grant and \$426 in FAP benefits (\$915).

*** Includes \$34 FIP grant, \$769 in earnings and \$398 in monthly FAP benefits (\$1,201).

**** Includes \$34 FIP grant, \$769 in earnings, \$398 in monthly FAP benefits, and a monthly proportion (\$298) of an annual EITC benefit of \$3,570. I.e. the amount a family of three (single adult w/2-children) is eligible to receive from the IRS when monthly average earnings total \$769.

Class I offenses are criminal acts that allow the prosecutor discretion to charge the juvenile offender in adult criminal court without a waiver hearing. Class II offenses are criminal acts that the prosecutor may also automatically waive into the adult criminal system, but upon sentencing requires a court determination as to whether to sentence the juvenile as a juvenile (with the option of a later adult sentence), or to sentence the juvenile as an adult. Class III offenses are all other crimes classified as felonies. Class IV offenses are misdemeanors. Class V offenses are status offenses that would not be a crime if committed by an adult.

Note: Offense codes were revised November 1, 1996.

- Michigan's net child support collections increased steadily from 1994-2002 and then moderately decreased in FY 2003. The FY 2003 decrease in FIP related collections was due to a FIP caseload decrease and a change in TANF regulations limiting the amount of Child Support Arrearages that can be assigned to the state. FY 2004 collections once again moved higher, and then moderately dipped in FY 2005. Collections in FY 2007 were up again, and the highest since FY 2002.

Data Source: OCS 34a Report (lines 7aG & 8G).

* Beginning in FY 1999 the method for obtaining non-FIP collections changed. This Federally required change resulted in higher collection figures.

Note : The totals are final, year-end adjusted amounts.

**OFFICE OF INSPECTOR GENERAL
VALUE OF CASES REFERRED TO PROSECUTORS FOR FRAUD
FY 1998 - FY 2007**

- The value of OIG cases referred to prosecutors for fraud in FY 2007 was \$18.9M.

* The OIG's use of the DHS Data Warehouse to identify potential fraud, particularly in the Child Development and Care Program, resulted in substantial increases in the dollar value of OIG fraud investigations (for the last three years).
